---

## PROFESSIONAL SUMMARY

Frontend Developer skilled in React.js, JavaScript, Tailwind, and Figma, with a focus on UI/UX and responsive design. I collaborate with teams to establish a technical vision and transform it into seamless user experiences, ensuring alignment with client goals and high-quality deliverables.

---

## KEY COMPETENCIES

ReactJS, Redux Toolkit  
JavaScript  
Tailwind CSS, React Bootstrap

Figma,  
Color Theory,  
Design Systems

UI / UX  
Visual Design  
Responsive Design

---

## PROFESSIONAL EXPERIENCE

**Infosys**

**Nov 2022 - Present**

### Technology Analyst

Migrated a Chrome extension from pure JavaScript to React, collaborating with cross-functional teams to align technical solutions with business goals. Led front-end decisions, integrated UI animations, and mentored developers, creating a tool that streamlined website usage, reduced training time, and boosted user adoption.

**Infosys**

**Sept 2021 - Nov 2022**

### Senior Systems Engineer

Developed a wellness pulse system displaying IoT sensor data, following frontend best practices. Created dynamic admin panels using Redux Toolkit, optimizing performance and efficiency by dynamically rendering data. This solution was implemented to reduce the licensing costs of a previously used tool.

**Infosys**

**Feb 2021 - Sept 2021**

### Systems Engineer

Developed a smart login component and consolidated two separate login pages into a single, user-friendly interface in React, reducing login time by 20% and enhancing the seamless user experience

---

## EDUCATION

### Bachelor Of Engineering

Canara Engineering College  
Computer Science, 2020

### 12TH

A.E.C.S, Kaiga, 2016

### 10TH

A.E.C.S, Kaiga, 2014

## PERSONAL ENDEAVOURS

- Utilize social media platforms to advocate for self-love, mental health, and spirituality.
- Share valuable insights and strategies for individual development and wellness.
