PROFESSIONAL SUMMARY

Frontend Developer with a knack for crafting visually appealing and responsive web applications. I mentor my team to stay updated with emerging technologies. I have been building my website as a showcase of my UI skills and creative endeavors.

SKILLS

ReactJs, Javascript, TypeScript, HTML5, CSS3, React-Bootstrap, Tailwind, Responsive Design, Git, Redux

EXPERIENCE

Technology Analyst, Infosys

Jan 2023 — Present

- Created dynamic user interfaces employing **Redux Toolkit** and **state management** thereby **optimizing efficiency** and **reducing licensing overheads**.
- Leading and mentoring the team thereby introducing new web tools and identifying **performance bottlenecks**. -I developed a Chrome extension using React to offer users guidance on utilizing a tool through instructions thereby promoting increased utilization of the tool.

Senior Systems Engineer, Infosys

Sept 2021 — Nov 2022

- Developed a wellness pulse system to display data collected from IOT sensors.
- Collaborated with **cross-functional teams** to translate visual concepts to code and following **best practices** to meet their design specifications needs by reusing components and react libraries.

Systems Engineer, Infosys

Feb 2021 — Sept 2021

- Developed a smart login component and registration page in **React** reducing login time by **20%** for seamless user experience.

Trainee, Infosys

Oct 2020

PROJECTS

UPCOMING SPIRITUAL STORE

- Built with: React Vite, Tailwind CSS, **Supabase**, Magic Link.
- Description : A spiritual store for selling crystals and offering spiritual services and manifestation workshops once it's launched.
